

### **Block ice crusher - Focusun Ice Machine**

This heavy duty ice crusher is specially designed for block ice crushing. Focusun offers two types of materials for different ice blocks.

- SUS304 stainless steel: Food grade direct refrigeration block ice.
- Chrome plated carbon steel: Brine refrigeration block ice.

The tapered thread has been the heat treatment for hardening; this gives you continuous heavy duty crushing ability.

Max intake size: 245\*125mm

Adjustable crushing size: 5mm-35mm

Siemens AC motor.

Light weight and compact design, great portability.

| Model No. | Crushing capacity | Install power | Power supply | Net weight | Dimension          |
|-----------|-------------------|---------------|--------------|------------|--------------------|
| FCS-01B   | 7.5Kg/ Min        | 2.2Kw         | 380V/50Hz/3P | 158Kg      | L1230*W700*H1450mm |
